A CARD.

HILLSBORO, Aug. 31, 1875.

J. L. BOONER, Esq.—Sir: I understand from Mr. Carlisle Barrere, that Mr. Springer has called on you and requested an introduction to the author of the article in your paper of the 19th, signed "Benton, Jr." I also notice in his paper of the same date, an article impeaching your veracity in relation to it.

To settle the question between you, I have no hesitancy in avowing myself as the author. I wrote the article and furnished it to Carlisle Barrere, and consented to its publication if he desired to have it done. Why Mr. Springer should have impeached your veracity about it I do not know; but I will say this, that after its publication in your paper Mr. Springer asked me if I had seen the article, and handed me the paper. I looked at it and laid down the paper, saying that "I had nothing to do with Boardman." I did not suppose that anybody had a right to inquire into the authorship, unless it was some one personally interested, and that from yourself. I told Mr. Springer that I had nothing to do with you, which was true, and I do not suppose, at that time you knew that I wrote the article.

If the article contained any good in itself, I did not think it made any difference about its author.

Yours respectfully, N. BARRERE.

SPRINGFIELD, JACKSON & POMEROY R.—

This enterprise seems to have been in a state of suspended animation for some time past, but recently it shows signs of reviving and going ahead. A meeting of the Directors will be held at Bainbridge this week, (Sept. 23) at which the final report of Mr. Agnew, the engineer, will be made, in regard to the difficult part of the line, between Bainbridge and Waverly, and it is expected that some decisive action will be taken. It is said that Mr. Agnew has found a much more favorable line than was considered practicable, with no grade exceeding 60 feet to the mile, going east, and none exceeding 35 feet going west.

A Good Suggestion.

OAKLAND FARM, Aug. 23, 1875.

MR. EDITOR:—As one of the objects of the Order of Patrons of Husbandry is to secure improvement in Stock Raising and the Products of the soil, I am in favor of the Board of Agriculture offering a liberal premium at our Fair to the Grange making the finest and best show of Live Stock and Farm and Garden products. What say the farmers? Let us hear from you in regard to the matter.
A PATRON.

Belfast.

The farmers are all done harvesting. Wheat pretty badly spoiled, both in the shock and in the stack. Mr. Swisshelm informs me that in threshing he has found one job that made 12 bushels per acre. As far as he has threshed he has kept an account, and estimates that wheat will not in this section average more than 3 or 4 bushels per acre.

Corn looks well, though very weedy. Hay and oats were damaged some by the rain.

Politics rather dull as yet. Republicans, as far as I hear, are well pleased with the ticket.

The work on the bridge across Elk River, 3 miles northeast of here, is progressing slowly. It is to be an iron bridge.

The Check of Diarrhea.

Diarrhea is a complaint that the human family suffer more from at this time of the year than from any other, and should be treated very carefully in order to restore the bowels to their proper strength. There is a wine made in New Jersey and sold by our druggists, called Spier's Port Grapes Wine, which is being used very successfully in Diarrhea cases; in fact just such properties as to gradually check the fermenting of the bowels and add tone and vigor to the system so as to withstand the miasmatic climate against these prevailing complaints. The wine is rich in body and is an excellent tonic, keeping the functions of the bowels in their proper condition. [Evening Post.]
